The Shuswap Women Who Wine Society is not-for-profit organization comprised of professional women from around the Shuswap. We host monthly networking events for our members with the intention of building relationships, learning how to support one another, and sharing best business practices. We also host many charitable fundraisers throughout the year, most notably our Quarterly Community Giving Events. These events are designed to create awareness for non-profits and charities operating in the Shuswap, give them a chance to voice their need to a dedicated group of community members, and win grants to complete important projects that benefit the community.

How do you believe this model adds value to:

1. The members of Shuswap Women Who Wine:
